Print/Collect is an independent publication that showcases eight artists working in Baltimore by circulating an affordable portfolio of limited edition prints. Each portfolio within the edition of 125 is available for \$200 and includes eight 16"x20" prints plus a 64 page catalog. The catalog features interviews and images that provide background information on the participating artists.

The mission of Print/Collect is to make art collecting affordable and easy while creating an archive of print work for members of the local creative community. The publication also introduces artists to audiences outside of the city through a portable publication format.
